

Thank you!!

Dear NSET Running Group,

We want to begin by letting all of you know how much we appreciate the very generous gift cards. We were surprised when we received the call from Tim, it took us a minute to grasp that you had thought about our family again. Sometimes it's very hard to accept gifts and can be very humbling. We as a family are doing great and Brad is doing fantastic, he is feeling much better and is back at school and has a full head of hair again. He is still in treatment for another 11 months, taking chemotherapy daily by mouth and has surgeries once a month for spinal chemotherapy, as well as chemo administered in his mediport (a central line in his chest), once a month. Sounds like a lot, but it's routine now and nothing compared to what he has been through. The medical bills are also with us but with your support and thoughtfulness we can concentrate on Christmas for the kids. Once again we are humbled and can't thank you enough for thinking of Brad. Your group has been more than generous to our family, thank you again.

Love,

The Zugel's
